

Proactive. Engaged. Personalized.

WE DELIVER A DIFFERENT TYPE OF HEALTHCARE MODEL DESIGNED TO BE CUSTOMIZABLE FOR THE EMPLOYER

With patient-focused care in mind, My Health Onsite is your complete source for improving health and boosting productivity. Through our interactive portals and your onsite or near-site health center, you will find easy access to the transformative power of onsite primary care and personalized services. Our programs go beyond caring for the sick and treating injuries—we make **PREVENTION** our number one goal.

Our medical team takes time to build strong personal relationships. No one is rushed in and out, and no one is a “number.” Patients may access a range of medical services at your onsite or near-site health center, including x-rays, an onsite pharmacy, treatment for acute illnesses like the flu, and medical care for chronic conditions like high cholesterol, high blood pressure, and diabetes.

Why is our Healthcare Model Successful?

My Health Onsite focuses on shifting from disease management to disease prevention by proactively providing employees and employers improved health outcomes with:

- **Increased Physician Face-Time** *(Our Medical Team Takes Time to Know Each Patient)*
- **Onsite Dietitian Offering Comprehensive Wellness Programs with Weekly Classes and Face-to-Face Coaching**
- **Employees Gain Easier Access to Screenings, Preventive Services, and Health Programs** *(Employers See Decreased Costs and Save Money)*
- **Occupational Services to Include Pre-employment/Post Employment Physicals, DOT/DOE, Workers Compensation and More**
